

Hi Family and Friends,

Today, Teresa transferred to the Candler Hospital In-Patient Rehabilitation Area! It started out to be just an "ordinary day at the Hospital". But things started happening between all of the various services--and before we knew it, the Discharge Planner had found a bed for her and she was transferring at 3:30pm! There is no In-Patient Rehabilitation at Memorial Hospital; Candler is just a few miles away.

Tomorrow, Teresa will meet all of her therapists and the real work will begin. Please pray for her strength and determination.

Hugs, Jerry and Barb
