

Teresa Update #7

2/17/21

Hi Family and Friends,

Again, we will tell you how much we appreciate your prayers!

Teresa's therapy at the Rehabilitation Hospital in Savannah is progressing well. She has daily sessions with Physical Therapy, Occupational Therapy, and Speech Therapy, for a total of 3 hrs per day, plus the Nurses continue to reinforce therapy when they work with her.

Today, I was able to visit the "gym" where she has therapy, and watched her walk the parallel bars about 40 Ft, with minimal assistance; and was in her room when the speech therapist was there. Her speech is nearly back to normal, unless she is tired. She has her laptop with her and has completed some of her graphic design work using her left hand. Her spirits are good, and she is determined to make progress every day!

Thanks for your prayers and encouragement. We ask for specific prayers that she will regain movement in her right arm and hand.

Hugs,

Jerry and Barb
